**Subject:** RE: SSP2 Figures

We have a separate set of figures that outline the CPG program that I will send later today. The blue circles high light some specific areas that we will specifically discuss.

Thanks, Rob. I have a few questions..

1. What do the blue circles around some of the proposed SSP2 locations mean? Are these ones you will argue are not necessary?
2. Conversely, are EPA proposed locations that are not circled ones you agree to sample?
3. Are there any additional locations you will propose sampling that are not indicated on the figures? If so, can we see those too?

Stephanie

Stephanie:

Attached are some maps and figures depicting the proposed EPA/PA's SSP 2 locations provided to the CPG on March 4. This is the CPG's understanding and interpretation of the EPA/PA locations.

Please contact me with any questions or comments.
